The Second International Conference on the series "Obadiah Sforno and his World" will be dedicated to "The Philosophical Canon of Obadiah Sforno and His Contemporaries". The conference focuses on the Sforno's reception of the Latin and Hebrew context. A newly discovered manuscript of a lengthy commentary on *Or 'Ammim* by Elijah of Butrio (16th century) tremendously assists to complete the comprehensive study of the Hebrew context of the work, and its reception in Jewish philosophical discourse.
